DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1,3-9,11,13-16,20-22 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Specifically, claims are not clear for the following reasons:

“adding to the solution a metal ion that can form the magnetic metal oxide” is a speculative and not a positive limitation. Formation of magnetic metal oxide is a part of the invention and should be stated as such.

The amendments and remarks filled by applicants on August 5, 2008 have been fully considered. Claims 2 and 10 have been allowed in view of the prior art of record. The remaining claims remain unpatentable in view of the above rejections. The rejections base on the prior art have been withdrawn.
